

Corridor Lamps

7651 SERIES AND 7031-92

DESCRIPTION

Corridor lamps may be utilized to assist in quickly locating an area or device in alarm. By locating a light on the wall above a device, such as a manual station, instant visual location is determined. The red wedge-shaped dome extends far enough from the stainless steel plate to allow maximum visibility when activated.

ORDERING INFORMATION

Cat. No.	Description
7651-AQ	Wedge-shaped dome, 24VAC/dc - 4W lamp
7651-AY	Wedge-shaped dome, 120VAC - 6W lamp
7031-92	ULC listed, plexiglass dome, 120VAC - 6W lamp

FEATURES

- FLUSH OR SURFACE MOUNTING
- EASY TO INSTALL
- RED INDICATORS

Fire Alarm Relay

6554 SERIES

DESCRIPTION

In the event of an 'Alarm' condition, the Edwards 6554 Series Fire Alarm Relay allows immediate start-up or shutdown of ventilating fans or other remote building equipment.

There are two models available. The 6554 Fire Alarm Relay is the 24Vdc model. The 6554-1 Fire Alarm Relay is a 120VAC model. Both devices have two Normally Open and two Normally Closed contacts. The contacts in each are rated 5 amps resistive or 3 amps inductive at 120VAC or 30Vdc. These relays are complete with a 2-gang stainless steel faceplate with black French/English bilingual markings.

The relay will flush mount to any 2-1/2" (64mm) deep standard North-American 2-gang electrical box or surface mount to any one of several EST 27193 series factory finished 2-gang backboxes. These backboxes are available in a variety of factory colours.

FEATURES

- STAINLESS STEEL FACEPLATE
- SUPERVISED OPERATION
- 2 N.O. & 2 N.C. CONTACTS
- 24VDC OR 120VAC

ORDERING INFORMATION
